Application of Simon Erani Serial No. 09/922,233 filed 8/3/2001 Response of 6/7/2004 to Office Action of 12/5/2003

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Jun 07 04 07:51a

- 1. (Once Amended) A composition for the treatment of the skin, comprising:
 - (a) Retinyl Palmitate Polypeptide;
 - (b) Ascorbylmethylsilanol Pectinate;
 - (c) Tocopheryl Polypeptide;
 - (d) Cholecalciferol Polypeptide; and,
 - (e) Niacinamide Polypeptide.
- 2. (Previously Presented) A composition as claimed in claim 1, wherein the ratio of said Retinyl Palmitate Polypeptide to said Ascorbylmethylsilanol Pectinate to said Tocopheryl Polypeptide to said Cholecalciferol Polypeptide to said Niacinamide Polypeptide is 95: 1.25: 1.25: 1.25: 1.25.
- (Twice Amended) A composition for the treatment of the skin comprising Ascorbylmethylsilanol Pectinate and Cholecalciferol Polypeptide.
- 4. (Twice Amended) A composition for the treatment of the skin comprising Ascorbylmethylsilanol Pectinate, Cholecalciferol Polypeptide, and at least one component selected from the group consisting of: Retinyl Palmitate Polypeptide, Tocopheryl Polypeptide, and Niacinamide Polypeptide.

Jun 07 04 07:51a Cohen 718-859-3044 p.4

Application of Simon Erani Serial No. 09/922,233 filed 8/3/2001 Response of 6/7/2004 to Office Action of 12/5/2003

- 5. (Twice Amended) A composition for the treatment of the skin comprising Ascorbylmethylsilanol Pectinate, Cholecalciferol Polypeptide, and at least two components selected from the group consisting of: Retinyl Palmitate Polypeptide, Tocopheryl Polypeptide, and Niacinamide Polypeptide.
- 6. (Previously Presented) A composition as claimed in claim 1, further comprising glycolic acid.
- 7. (Previously Presented) A composition as claimed in claim 2, further comprising glycolic acid.
- 8. (Previously Presented) A composition as claimed in claim 3, further comprising glycolic acid.
- 9. (Previously Presented) A composition as claimed in claim 4, further comprising glycolic acid.
- 10. (Previously Presented) A composition as claimed in claim 5, further comprising glycolic acid.
- 11. (Previously Presented) A composition as claimed in claim 1, wherein said composition is provided as part of a substance for application to the skin.
- 12. (Previously Presented) A composition as claimed in claim 11, wherein said substance is a gel.
- 13. (Previously Presented) A composition as claimed in claim 11, wherein said substance is a creme.
- 14. (Previously Presented) A composition as claimed in claim 11, wherein said substance is a lotion.
- 15. (Previously Presented) A composition as claimed in claim 11, wherein said composition is provided at a concentration of 1-10%.
- 16. (Previously Presented) A composition as claimed in claim 11, wherein said composition is provided at a concentration of 2-5%.
- 17. (Previously Presented) A composition as claimed in claim 11, wherein said composition is provided at a concentration of 10-20%.
- 18. (Previously Presented) A composition as claimed in claim 11, wherein composition is provided

Jun 07 04 07:52a Cohen 718-859-3044 p.5

Application of Simon Erani Serial No. 09/922,233 filed 8/3/2001 Response of 6/7/2004 to Office Action of 12/5/2003

at a concentration of approximately 1.5%, and wherein said substance further comprises approximately 3% glycolic acid.

- 19. (New) A method comprising:
 - providing a composition for application to human skin to improve the appearance of the skin, said composition comprising Retinyl Palmitate Polypeptide, Ascorbylmethylsilanol Pectinate, Tocopheryl Polypeptide, Cholecalciferol Polypeptide, and, Niacinamide Polypeptide.
- 20. (New) A method as claimed in claim 19, wherein the ratio of said Retinyl Palmitate Polypeptide to said Ascorbylmethylsilanol Pectinate to said Tocopheryl Polypeptide to said Cholecalciferol Polypeptide to said Niacinamide Polypeptide is 95: 1.25: 1.25: 1.25: 1.25.
- 21. (New) A method comprising:
 - providing a composition for application to human skin to improve the appearance of the skin, said composition comprising Ascorbylmethylsilanol Pectinate and Cholecalciferol Polypeptide.
- 22. (New) A method as claimed in claim 21, wherein said composition further comprises at least one component selected from the group consisting of: Retinyl Palmitate Polypeptide, Tocopheryl Polypeptide, and Niacinamide Polypeptide.
- 23. (New) A method as claimed in claim 21, wherein said composition further comprises at least two components selected from the group consisting of: Retinyl Palmitate Polypeptide,

 Tocopheryl Polypeptide, and Niacinamide Polypeptide.

Application of Simon Erani Serial No. 09/922,233 filed 8/3/2001 Response of 6/7/2004 to Office Action of 12/5/2003

- 24. (New) A method as claimed in claim 19, wherein said composition further comprises glycolic acid.
- 25. (New) A method as claimed in claim 20, wherein said composition further comprises glycolic acid.
- 26. (New) A method as claimed in claim 21, wherein said composition further comprises glycolic acid.
- 27. (New) A method as claimed in claim 22, wherein said composition further comprises glycolic acid.
- 28. (New) A method as claimed in claim 23, wherein said composition further comprises glycolic acid.
- 29. (New) A method as claimed in claim 19, wherein said composition is provided at a concentration of 1-10%.
- 31. (New) A method as claimed in claim 19, wherein said composition is provided at a concentration of 2-5%.
- 32. (New) A method as claimed in claim 19, wherein said composition is provided at a concentration of 10-20%.
- 33. (New) A method as claimed in claim 19, wherein composition is provided at a concentration of approximately 1.5%, and wherein said substance further comprises approximately 3% glycolic acid.
- 34. (New) A method as claimed in claim 20, wherein said composition is provided at a concentration of 1-10%.

Jun 07 04 07:52a Cohen 718-859-3044 p.7

Application of Simon Erani Serial No. 09/922,233 filed 8/3/2001 Response of 6/7/2004 to Office Action of 12/5/2003

- 35. (New) A method as claimed in claim 20, wherein said composition is provided at a concentration of 2-5%.
- 36. (New) A method as claimed in claim 20, wherein said composition is provided at a concentration of 10-20%.
- 37. (New) A method as claimed in claim 20, wherein composition is provided at a concentration of approximately 1.5%, and wherein said substance further comprises approximately 3% glycolic acid.
- 38. (New) A method as claimed in claim 21, wherein said composition is provided at a concentration of 1-10%.
- 39. (New) A method as claimed in claim 21, wherein said composition is provided at a concentration of 2-5%.
- 40. (New) A method as claimed in claim 21, wherein said composition is provided at a concentration of 10-20%.
- 41. (New) A method as claimed in claim 21, wherein composition is provided at a concentration of approximately 1.5%, and wherein said substance further comprises approximately 3% glycolic acid.
